SKILLS

- Programming
- Problem-solving
- Team Collaborative
- Communication
- Adaptability
- Time Management
- Continuous Learning
- Critical Thinking

PROGRAMMING

- C
- Python
- NodeJS
- HTML
- CSS
- JavaScript
- ReactJS
- SQL
- Flask
- CI/CD

PROFILE

Aspiring Software Engineer with a diverse background in language teaching and consulting. Offering a distinctive blend of cross-cultural expertise and technical skills. Passionate about the intersection of technology and its real-world impact. Eager to contribute to an inclusive and innovative tech company.

EDUCATION

Holberton School Australia
Feb 2023 - Present

9- month full-time Software Engineer study on a collaborative, project-based curriculum.

- Gained a deep understanding of programming and **Unix** systems.
- Acquired a comprehensive understanding of **full-stack** development, including front-end and back-end technologies to build complete web applications.
- Gained hands-on experience with **web development** technologies such as HTML, CSS, JavaScript and front-end libraries.

Notable Projects:

- **Ainbnb Clone**: Deployed a simplified replica of the Airbnb website on a server, incorporating:
  - Command interpreter(**Python**)
  - **Front-end** website: HTML, CSS, JavaScript, Flask
  - **Back-end** RESTful API: Python
  - **Database** or data storage files(SQL/ JSON)

- **Kids Know:** A job management web application implementing functionalities like creating tasks, calendars, progress tracking, etc.
  - **Architecture**: AWS S3, Lambda, API Gateway
  - Front-end: **ReactJS**
  - Back-end: **Node.js**
  - Database: **MySQL**

- **Simple Shell**: Implemented a command line interpreter similar to the **Unix** shell, written in C language.

Nankai University, M.A. Applied Linguistics 2013

- Second Language Acquisition
- Cross-cultural Communication

Nanjing Audit University, B.A. Linguistics 2010

- Pragmatics and Discourse Analysis
- Psycholinguistics
- Language Testing and Assessment

WORK EXPERIENCE

Project Manager, EASYMODE, 2020-2023

- Assist project **planning** by setting project scope, objectives and outlining milestones
- **Collaborate** with clients to gather requirements, provide updates and address any issues
- Facilitate clear and **effective communication** among team members and clients

  Key achievement: Extend client base

Immigration Consultant, AMRC, 2016-2020

- On-going communication with clients for **mutual understanding** and provide personalised consultation
- Gather large amount of documents and **efficiently organising** according to specific requirements
- Client database **maintenance** and case **management**
- **Problem solving** by addressing challenges during the application process and develop strategies to overcome obstacles

  Key achievement: Cultivate strong customer **relationships** to drive the business's **growth**

Language Teacher, Confucius Institute at University of Melbourne, 2016-2020

- Design and deliver **high-quality** and engaging language curriculum
- Maintain **positive** and **organised** classroom environment
- Provide individual support and guidance as needed to ensure student's wellbeing and language development
- Demonstrate **teamwork** and provide faculty support
- Integrate technology and digital tools to **enhance** learning experience
- Evaluate students' skills via assessments, tests and assignment to **track progress** and tailor instruction accordingly

  Key achievement: Incorporate **creative** methods to innovate teaching
